

신경과학 I (이) (LS305-01)

학기	2025년 1학기
담당교수	서병창
이수구분	교선평수
학점	3.0
강의시간	월10:30-12:00(E7 - 241), 수10:30-12:00(E7 - 241)
강의실	E4 309 (서병창 교수)
소속	기초학부

교과개요

The goal of Neuroscience (신경과학) is to establish a solid foundation in neurobiology, survey the brain systems that control sensation and movement, investigate how various neuronal systems contribute to different behaviors, and examine the cellular and molecular basis of brain development, learning, and memory.

교과목표

In this lecture series, the professors will cover the basic properties of neurons, as well as the systems and related diseases of the brain. This course is highly recommended for students who wish to major in Brain Sciences and for those interested in brain-related research topics.
