

일반물리 I (BS103a-04)

학기	2026년 1학기
담당교수	DEVECIOGLU DENIZ OLGU
이수구분	공통필수
학점	3.0
강의시간	수15:00-16:30(E7 - 236), 금15:00-16:30(E7 - 236)
강의실	E7 L06 (교수실)
소속	기초학부

교과개요

This calculus based course provides students with the basic concepts of physics that enable them to understand describe and explain natural phenomena. Emphasis is laid on general principles and fundamental concepts in mechanics with applications of physics in various fields of engineering.

교과목표

The goal of this course is to provide a calculus-based physics course to help students pursuing advanced studies in sciences and engineering develop conceptual understanding of physical principles, the ability to reason, and gain skills for problem solving.

학습윤리

You are expected to demonstrate academic honesty in all aspects of this course. Academic dishonesty includes, but is not limited to: violating clearly stated rules for taking an exam or completing an assignment; plagiarism (including material from sources without a citation and quotation marks around any borrowed words); claiming another's work or a modification of another's work as one's own; buying or attempting to buy papers or projects for a course; fabricating information or citations.

교과정책(방침)

Attendance: Regular attendance is expected. Participation: Active participation in lectures and discussions is encouraged and may be assessed. Assignments: All assignments must be submitted by the stated deadline. Late submissions may incur a penalty unless prior approval is granted. Exams & Assessments: Make-up exams are allowed only with documented, valid reasons. Communication: Official announcements will be made via the course platform or email; students are responsible for staying informed.
