

프로그래밍 언어(이,공) (CSE307-01)

학기	2026년 1학기
담당교수	전민석
이수구분	교선�필수
학점	3.0
강의시간	화14:30-16:00(E7 - 236), 목14:30-16:00(E7 - 236)
강의실	E7 211 (교수실)
소속	기초학부

교과개요

This course explores the fundamental principles and paradigms underlying modern programming languages. Students will study key concepts including syntax, semantics, and type systems. students will design and implement programming languages. This course will also discuss designing appropriate programming approaches to solve diverse computational problems.

교과목표

Upon successful completion of this course, students will be able to understand and apply fundamental principles of programming language design including syntax, semantics, and type systems. Through hands-on implementation and theoretical study, students will learn to select appropriate languages for specific problems, understand language implementation techniques, and rapidly adapt to new programming languages by leveraging core principles that transcend individual language syntax.

주차별 강의계획

1주차:Inductive Definitions
2주차:Functional programming
3주차:Expressions
4주차:Procedures
5주차:Lexical Scoping
6주차:States
7주차:States
8주차:Midterm Exam
9주차:Records, Pointers, and garbage collection
10주차:Static Type System
11주차:Static Type System
12주차:Automatic Type Inference
13주차:Polymorphic Type Systems
14주차:Lamda Calculus
15주차:Programming Language Applications
16주차:Final Exam

수업방법

Self-contained lecture slides will be provided.

학습윤리

Students are expected to maintain the highest standards of academic honesty and integrity throughout this course. All submitted work must be original and completed independently unless explicitly designated as group work. Violations of academic integrity, including plagiarism, cheating on exams, or unauthorized collaboration, will result in serious consequences ranging from failure on the assignment to failure in the course.

교과정책(방침)

Attendance: Regular attendance is strongly encouraged and essential for success in this course. Students are responsible for all material covered in class, including announcements and assignment details.

Classroom Conduct: Students are expected to maintain a respectful and professional learning environment. Disruptive behavior, including inappropriate use of electronic devices, will not be tolerated.
