교과개요

This course is designed to give international students a taste of the various and diverse aspects of traditional Korean culture, including the history and language of Korea, its religions and philosophies, its art and architecture, its music and performing arts, and its literature and folklore. Given the broad scope of the course, it will naturally not be possible to dive too deeply into any single subject, but the course aims to provide a foundational understanding of Korea and inspire students to further explore its cultural heritage.

교과목표

This course has two primary objectives: first, to provide an overview of traditional Korean culture, history, and language; and second, to help students develop a foundational understanding of contemporary Korea.
