강의실	E7 215 (교수실)
소속	기초학부

교과개요

This class is designed for students who are encountering international politics for the first time, introducing theories and concepts of international politics. The course explores answers to the following questions: 1) What are the major theories explaining international politics, and how do each of these theories differently explain international phenomena and criticize other theories?; 2) What are the causes of war, and what are the conditions for peace?; 3) What roles do international political institutions, organizations, and laws play?; 4) What relationship exists between domestic politics and international politics?; 5) How should we understand international political economy?; 6) What issues and controversies have been predominantly discussed in international politics, and what are the new international political issues in the 21st century?

교과목표

This class aims to assist students in developing a systematic and analytical understanding of key issues in international politics commonly encountered in the news.
