교과개요

This class introduces basic cell biology, including basic cellular organelles, structures, experimental technologies, and also diseases and systems at the cellular levels. Also this class will introduce a little bit of molecular biology. Thus, this class will function as the core class for those who plan to have 'biology' as their major.

교과목표

- Learn the basic cellular organelles and structures.
- Understand the basic principles by which cells maintain their functions and integrity.
- Understand how the cellular behavior is associated with organismal level of health and diseases.

학습윤리

Integrity and active participation are must. Electronics are prohibited.

교과정책(방침)

모든 생명과학의 기본 과목이므로 성실한 학습이 필요함 정영태 교수와 백명인 교수가 교대로 강의를 진행할 예정
