

도심항공교통개론(이,공) (TP202-01)

학기	2026년 1학기
담당교수	인수일
이수구분	교선평수
학점	3.0
강의시간	월16:00-19:00(E7 - G03)
강의실	
소속	기초학부

교과개요

This course aims to develop fundamental competencies required for aircraft piloting and drone operations through foundational theory and practical training, covering principles of flight, aviation meteorology, aviation regulations, aviation safety, and aeronautical communications.

교과목표

Acquire operational knowledge of aircraft and Unmanned Aircraft Systems (UAS) in accordance with FAA standard Understand essential elements such as principles of flight, airspace classification, and aviation meteorology Master regulations and operational procedures for safe and effective drone piloting and operations

주차별 강의계획

- 1주차:Orientation / History of AviationDevelopment of aviation and overview of pilot licensing systems
- 2주차:Aerodynamics IPrinciples of lift, drag, thrust, and weight
- 3주차:Aerodynamics IIAircraft attitude, stability, and control surfaces
- 4주차:Aircraft Structures and SystemsEngines, propellers, and aircraft systems
- 5주차:Aviation MeteorologyAtmospheric pressure, wind, clouds, and METAR/TAF interpretation
- 6주차:Air Navigation and AirspaceVFR/IFR airspace structure and navigation equipment
- 7주차:Aviation Regulations and Operating ProceduresFAA and MOLIT regulations; flight plan preparation
- 8주차:Aeronautical Communications and ATC ProceduresStandard radio communication procedures and ATC communication practice
- 9주차:Aviation Safety and Accident AnalysisCase studies of aviation accidents and Safety Management Systems (SMS)
- 10주차:Aviation Safety and Accident AnalysisCase studies of aviation accidents and Safety Management Systems (SMS)
- 11주차:Introduction to Drone (UAS) OperationsRegulations and UAS system components
- 12주차:Introduction to Drone (UAS) OperationsRegulations and UAS system components
- 13주차:Drone Flight Planning and Risk ManagementAirspace and weather analysis; risk management
- 14주차:Drone Flight Planning and Risk ManagementAirspace and weather analysis; risk management
- 15주차:Final Examination and PresentationsComprehensive assessment and team project presentations
- 16주차:Final Examination and PresentationsComprehensive assessment and team project presentations

수업방법

Ground lecture

학습윤리

Any form of academic misconduct, including plagiarism, cheating, or submission of work completed by others, will result in a score of zero and disciplinary action in accordance with university regulations. All examinations and assignments must be completed honestly and independently by the student.

교과정책(방침)

Students are required to attend at least 80% of the total class hours. Three instances of tardiness will be counted as one absence.
