교과개요

This course introduces students to modern physics through a series of research-oriented laboratory experiences provided by four Physics Track faculty members. Students participate in two- to three-week experimental modules, gaining hands-on experience with advanced experimental methods, data analysis, and contemporary topics in physics research.

교과목표

To experience state-of-the-art physics experiments offered by the research laboratories of Physics Track faculty members.

To develop practical skills in experimental techniques, data analysis, and scientific reasoning.

To enhance teamwork and scientific communication through collaborative projects and presentations.

To foster interest in modern physics research and its applications.
